Industries for the Blind, Inc. is a non-profit organization dedicated to providing employment opportunities to blind professionals through the identification and fulfillment of customer needs. We serve a wide range of customers from the federal government and military installations, to Fortune 500 companies and small businesses. We provide these companies with the supplies they need to keep daily operations running smoothly. These supplies include anything and everything from office supplies to furniture and janitorial to tool and maintenance products.

“Working at IB has given me a whole new outlook on a whole lot of things including self-esteem. I used to sit around and worry, but now I have a reason to get up and out of the house every day and converse with people from all walks of life who work here. It is completely different from what I was used to and I feel very good about myself.”

- Julie Davis, Machine Operator

*Steve Ward,
Production Supervisor*

OUR MISSION

Millions of adults in the United States are either legally blind or living with significant vision loss. Nearly 70% of those blind individuals are unemployed. Our mission is to provide meaningful employment opportunities for these people so they may develop the life skills to expand their career horizons.

When you buy from Industries for the Blind you're getting more than high-quality products and services. You're making a positive impact on people's lives.

OUR VISION

The beginning of Industries for the Blind dates back to 1948 when Paul Fryda launched Alwin Products Co. to provide employment for his blind brother. In 1952, he learned of the National Industries for the Blind launch of SKILCRAFT® branded products and restructured the company with the goal of producing these products and expanding blind employment opportunities.

Since then, we have grown to a company with more than 250 employees, nearly half of whom are legally blind or visually impaired. Our 100,000-square-foot manufacturing, warehousing and distribution facility is ISO 9001 Quality Certified. We hold multiple GSA contracts and are the first blind agency to win the GSA Quality Assurance award for the assembly of ballpoint pens. As an award-winning authorized AbilityOne® distributor, we have established long-term working relationships with the U.S. Government and the U.S. Military, as well as some of the largest retailers in the world, including Walmart.

We owe our ongoing success to our unwavering dedication to our mission, the hard work of our employees, as well as to our long-standing relationships and support of our customers.

BROOMS

Flexsweep Industrial Push Broom

- Ergonomic and absorbs repetitive shock
- No braces to get in the way
- Durable high quality, long lasting

Metric Combo Wrench

- Premium grade, high polished chrome finish combination wrench with open and box ends
- Open end features continuous arc design that distributes applied stress over the entire radius of the open end; enhancing wrench strength
- Constructed from forged and heat treated steel resulting in a superior wrench with the proper strength and durability while reducing wear and breakage
- Meets or exceeds aerospace specifications AS 954 for 12 point fasteners (as defined by AS 870) to provide accurate torque/tension relationship for precision applications
- Berry Amendment Compliant
- Limited Life time warranty
